

Product Catalogue

Fairyland is one of the webbing and belt manufacturers which has an integrated R&D, manufacturing and sales capability. Since the establishment of the company in 2006, we have been focused on development and manufacturing of high end webbing and belts for premium brands around the world. With continuous commitment on quality, innovation and management improvement, company has gained trust and support from customers in US, Europe, Japan and China. Our product categories also extended from solely webbing to webbing related products, like outdoor and tactical belts, pet products and exercise bands etc.

In 2013, company was merged by Fairyland International (Asia) and become one of the members of Fairyland Group. In 2017, a professional outdoor accessory brand, "Cevennes" was formally established and company has switched the orientation from "OEM" to "Independent R&D Manufacturer" and "Branded Project Development"

To strengthen the management and quality system, as well to improve working efficiency, company has acquired ISO9001 and related certificates in 2008. All the raw materials we used are toxic free and eco-friendly which fulfilled requirements from US and Europe standards.

Insisting on the creed "Quality First and Credit Foremost", we devote ourselves to technological innovation and improve our efficiency constantly. We will always provide the best quality and services to our customers.

Any contact are welcome. We look forward to being your best business partner!

1. Material of Belt Buckle

03-04

2. Brand New Styles

05-10

- Nylon Camouflage
- Nylon Elastic
- Nylon Leather
- Nylon Tough

3. Outdoor Series

11-22

- Nylon Snow
- Nylon Star
- Nylon Herringbone Double
- Nylon Twill
- Nylon Jacquard
- Nylon Greatwall
- Nylon Grooved
- Nylon Tanks Grain
- Nylon Plain Grain
- Nylon Rainbow
- Nylon Bean Grain
- Nylon Embossed

4. Tactic Series

23-28

- Nylon Function
- Nylon Tanks Grain
- Nylon Python
- Nylon Embossed
- Polyester Camouflage

5. Military Series

29-32

- Nylon Bandolier
- Polyester Camouflage
- Nylon Outer
- Cotton Outer

Carbon Fiber

Carbon fiber is a new fiber material about 5–10 micrometres in diameter and composed mostly of carbon atoms. It has several advantages including high stiffness, high tensile strength, low weight, high chemical resistance, high temperature tolerance and low thermal expansion. These properties have made carbon fiber very popular in aerospace, civil engineering, military, and motorsports, along with other competition sports. However, they are relatively expensive when compared with similar fibers, such as glass fibers or plastic fibers.

Aluminum Alloy

Aluminum alloys are alloys in which aluminium is the predominant metal. The typical alloying elements are copper, magnesium, manganese, silicon, tin and zinc. They are widely used in engineering structures and components where light weight or corrosion resistance is required. They have been very important in aerospace manufacturing since the introduction of metal-skinned aircraft.

Zinc Alloy

Zinc alloys are zinc-based alloys by adding another elements, like aluminum, copper, magnesium, cadmium, lead and titanium etc. The properties of low melting point, low viscosity, good fluidity and resistant to corrosion makes it possible the production of small and intricate shapes in automotive, electrical, and hardware industries.

POM

Polyoxymethylene (POM), also known as acetal, is an engineering thermoplastic used in precision parts requiring high stiffness, low friction, and excellent dimensional stability. Typical applications for injection-molded POM include high-performance engineering components such as small gear wheels, eyeglass frames, ball bearings, ski bindings, fasteners, guns, knife handles, and lock systems. The material is widely used in the automotive and consumer electronics industry.

Brand
New Styles

Nylon Camouflage

Features

1. Sewed camouflage pattern with high quality nylon ribbon
2. High density nylon ribbon offers superior tensile strength and wearing resistance.
3. Excellent performance in extreme environment, good for ultimate sports.
4. High-graded aluminum buckle with neat design.
5. Unique buckle design offers extra safety functions for emergency and daily application.
(Refer to "Demonstration of Special Applications")

Product Code	Description	Material	Buckle Material	Width (mm)
NLMC-01-30	Camouflage Nylon Belt	Nylon	Aluminum Alloy	30
NLMC-01-38				38

Nylon Elastic

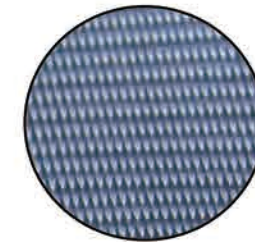

Features

1. Innovative elastic band, made of high quality natural rubber and nylon material.
2. Superior tensile strength and wearing resistance
3. Elastic property allows free movement of the body which offer comfort wearing experience.
4. 100% light weighted carbon fiber buckle with excellent tensile strength and touch feeling
- 5 User friendly design - non metal buckle allows you to cross the custom freely without lifting or removing your belt.

Product Code	Description	Material	Buckle Material	Width (mm)
NLSJ-01-30	Elastic Nylon Belt	Nylon	Carbon Fiber	30
NLSJ-01-38				38

Nylon Leather

Features

1. New business casual series with combination of high quality nylon ribbon and leather
2. Stylish design with excellent wearing experience
3. High wearing resistance and tensile strength
4. High-graded zinc alloy buckle with neat design

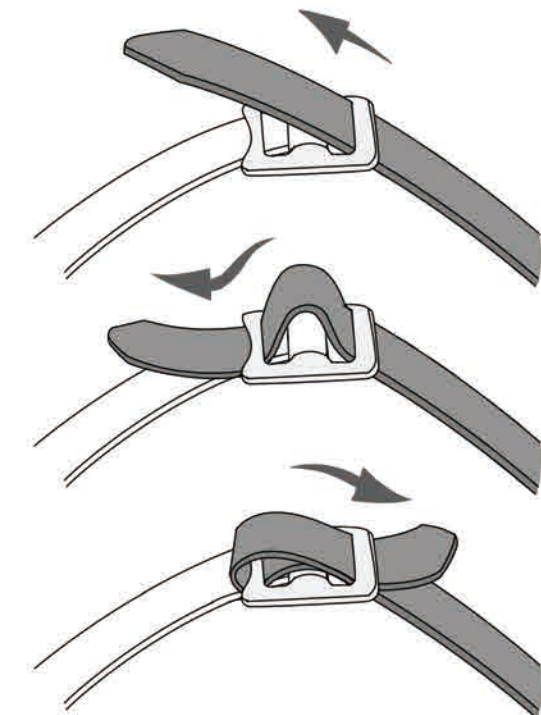

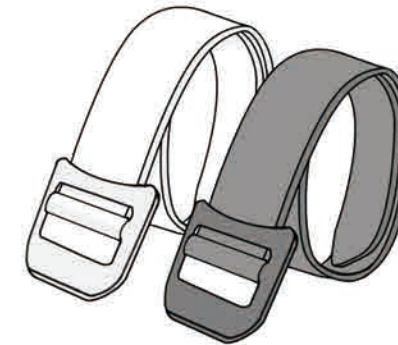

Product Code	Description	Material	Buckle Material	Width (mm)
NLLD-01-30	Nylon Leather Belt	Nylon + Leather	Zinc Alloy	30
NLLD-01-38				38

Nylon Tough

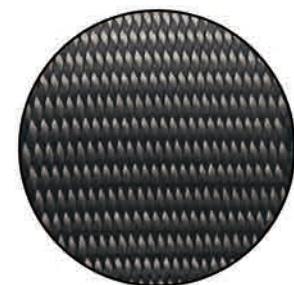

Brand New Products

ASSEMBLY GUIDE

Product Code	Description	Material	Buckle Material	Width (mm)
NLTG-01-30	Tough Nylon Belt	PA66	Aluminum Alloy	30
NLTG-01-38				38

Features

1. High quality nylon material offers superior tensile strength and wearing resistance.
2. Soft touch material offers comfort wearing experience.
3. Physical properties of high density, high tensile strength will not change in -20°C environment, excellent for ultimate sports.
4. High-graded aluminum buckle with neat design.
5. Unique buckle design offers extra safety functions for emergency and daily application.

Demonstration of special applications

1. Act as bundled rope to fix gears or luggage

2. Act as safety rope for rappelling during emergency

Nylon Snow

Outdoor Series

Features

1. Zinc alloy adjustable buckle with concept originated from sports car.
2. Snow pattern offers non-slip function
3. High density, high strength and high wearing resistant nylon material
4. Excellent performance in extreme environment, fit for ultimate sports.
5. Unique buckle construction offers extra safety functions for emergency and daily application.

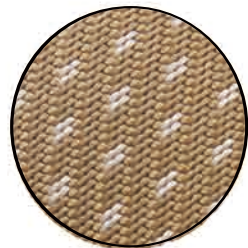

Product Code	Description	Material	Buckle Material	Width (mm)
NLXH-01-30	Snow Nylon Belt	Nylon	Zinc Alloy	30
NLXH-01-38				38

Nylon Star

Features

1. Light weighted and high tensile strength carbon fiber buckle offers a refreshing experience in using outdoor belt.
2. Non metal buckle allows you to cross the custom freely without lifting your belt.
3. Physical properties of high density, high strength and wearing resistant nylon material do not have any changes even in -20°C environment.
4. Adjustable, flexible and comfortable

Product Code	Description	Material	Buckle Material	Width (mm)
NLXK-01-30	Star Nylon Belt	Nylon	CarbonFiber/ POM	30
NLXK-01-38				38

Nylon Herringbone Double

Features

1. Double herringbone pattern
2. Light weighted aluminum buckle with unique design
3. Brand new elastic band, made of high quality natural rubber and nylon fabric
4. Elastic band allows free movement of the body which offer comfort wearing experience.
5. High tensile strength and excellent performance in severe environment

Product Code	Description	Material	Buckle Material	Width (mm)
NLSR-01-30	Double Herringbone Nylon Belt	Nylon	Aluminum Alloy/ Zinc Alloy	30
NLSR-01-38				38

Nylon Twill

Features

1. Twill pattern
2. Color variations offer flexibility in costume match.
3. High-graded zinc alloy buckle
4. High density, high tensile strength and excellent wearing resistance, can use for long time.

Product Code	Description	Material	Buckle Material	Width (mm)
NLXW-01-30	Twill Nylon Belt	Nylon	Zinc Alloy	30
NLXW-01-38				38

Nylon Jacquard

Features

1. Jacquard pattern provides non-slip function
2. Different color combination offers flexibility in costume match.
3. High density nylon material offers superior tensile strength and wearing resistance.

Product Code	Description	Material	Buckle Material	Width (mm)
NLTH-01-30	Jacquard Nylon Belt	Nylon	Zinc Alloy	30
NLTH-01-38				38

Nylon Greatwall

Features

1. Great Wall pattern.
2. User friendly design - Plastic buckle from YKK allows you to cross the custom freely without lifting or removing your belt.
3. With anti-load feature, free of tape slipping and feasible of keeping new for a long time.
4. High density nylon ribbon, being solid, durable, hypoallergenic and anti-corrosion.
5. Classic with unique weaving texture

Product Code	Description	Material	Buckle Material	Width (mm)
NLCC-01-30	Greatwall Nylon Belt	Nylon	POM / Aluminum Alloy	30
NLCC-01-38				38

Nylon Grooved

Features

1. Grooved pattern
2. Eco-friendly nylon material offers superior tensile strength and wearing resistance
3. High quality POM buckle allows you to cross the custom freely without lifting or removing your belt.
4. Simple and classic design

Product Code	Description	Material	Buckle Material	Width (mm)
NLKW-01-30	Grooved Nylon Belt	Nylon	POM	30
NLKW-01-38				38

Nylon Tanks Grain

Features

1. Unique tank grain pattern provides firm locking and non-slip function
2. Car concepted buckle offers excellent adjustable function
3. Physical properties of high density, high tensile strength and superior wearing resistant nylon material offers excellent performance in severe environment.
4. Belt length and degree of tightness can be freely controlled without causing any uncomfortable feeling

Product Code	Description	Material	Buckle Material	Width (mm)
NLTK-01-30	Tanks Grain Nylon Belt	Nylon	Zinc Alloy	30
NLTK-01-38				38

Nylon Rainbow

Features

1. Lady design with different color combination, perfect match with dry pants.
2. Light weighted aluminum buckle with neat design.
3. High density nylon material offers superior tensile strength, good for various activities.

Product Code	Description	Material	Buckle Material	Width (mm)
NLCH-01-30	Rainbow Nylon Belt	Nylon	Aluminum Alloy	30

Nylon Plain

Features

1. Plain pattern
2. Light weighted aluminum buckle offers comfort wearing experience.
3. High quality nylon material provides high tensile strength which excellent for ultimate sports.

Product Code	Description	Material	Buckle Material	Width (mm)
NLPW-01-30	Plain Nylon Belt	Nylon	Aluminum Alloy	30
NLPW-01-38				38

Nylon Bead Grain

Features

1. Bean grain pattern
2. Plain and soft touch feeling allow you to tighten and release the belt easily.

Product Code	Description	Material	Buckle Material	Width (mm)
NLZW-01-30	Bean Grain Nylon Belt	Nylon	Zinc Alloy	30
NLZW-01-38				38

Nylon Embossed

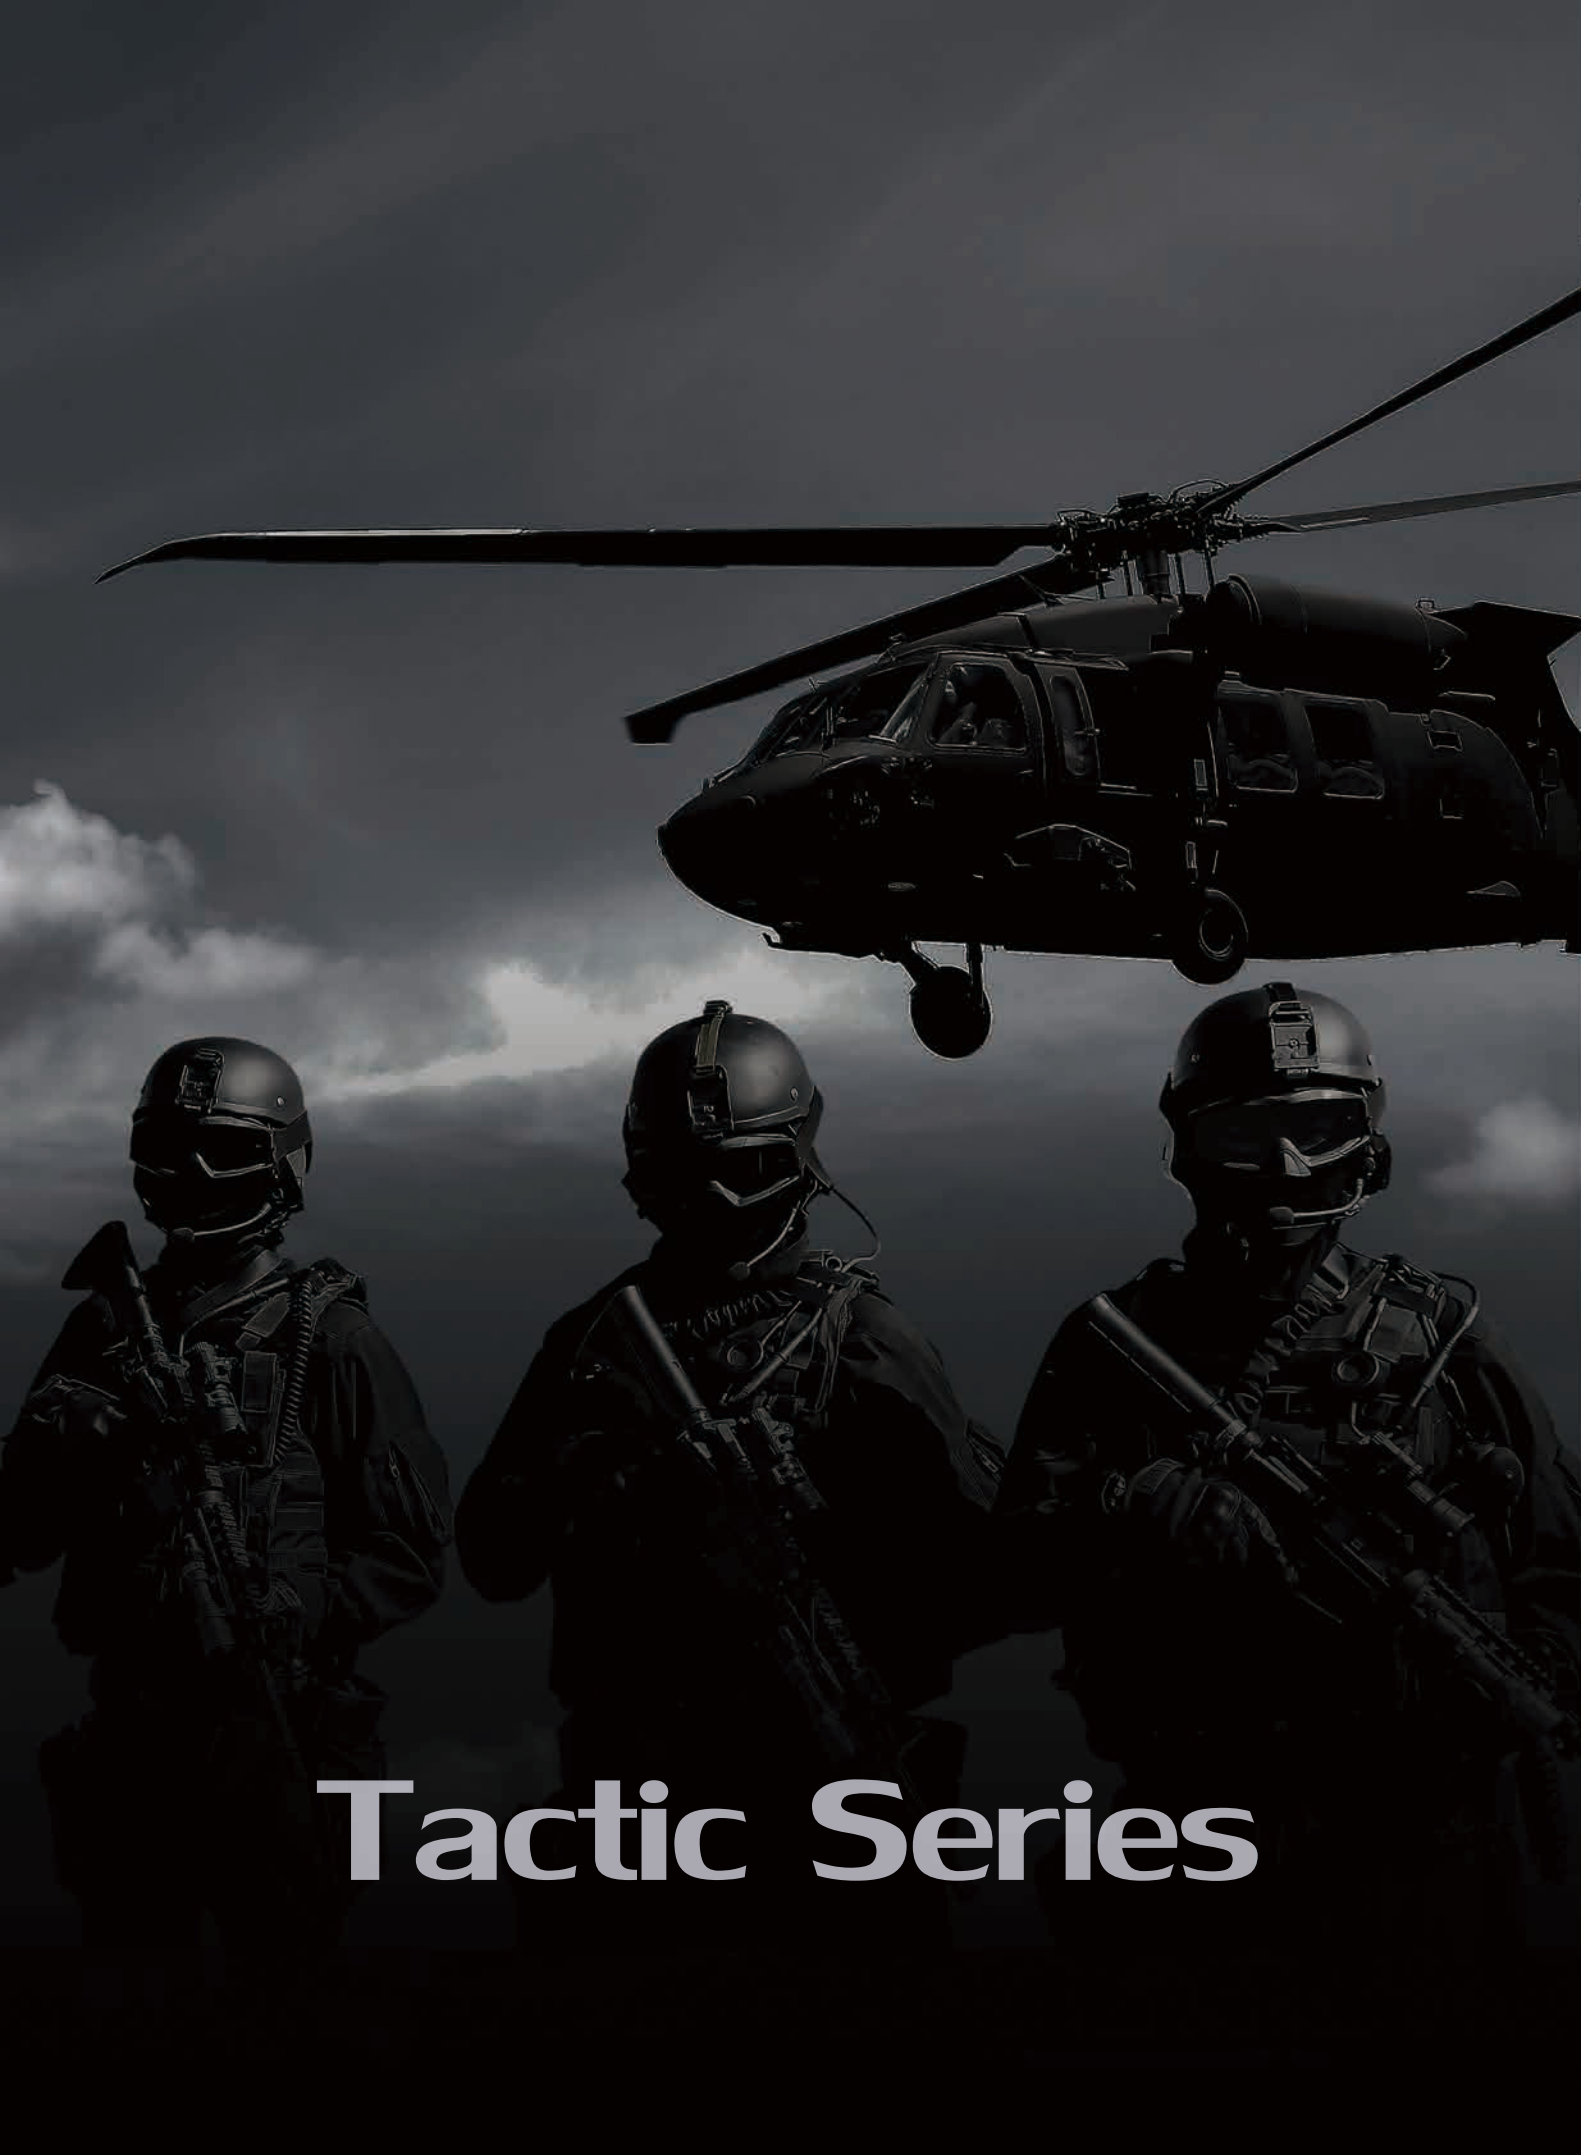

Features

1. Zinc alloy adjustable buckle.
2. Embossed pattern offers non-slip function.
3. High density, high strength, durable and superior wearing resistance.

Product Code	Description	Material	Buckle Material	Width (mm)
NLAT-01-30	Embossed Nylon Belt	Nylon	Zinc Alloy	30
NLAT-01-38				38

Nylon Function

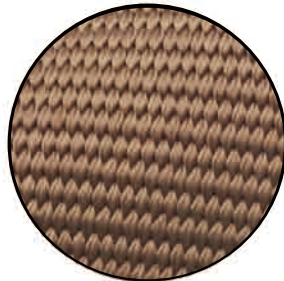

Tactic Series

Features

1. Functional ribbon with burning resistant properties.
2. Auto-locked buckle with tensile strength over 1800KG.
3. Special buckle mechanism prevents burning from instant abrasion during ultimate sports.
4. Movable bar of the buckle provides extra non-slip function
5. Classic design with combination of meticulous workmanship and multi-applications.

Product Code	Description	Material	Buckle Material	Width (mm)
NLGN-01-40	Functional Nylon	Nylon	Zinc Alloy	40

Nylon Tanks Grain

Product Code	Description	Material	Buckle Material	Width (mm)
NLTK-02-38	Tanks Grain Nylon Belt	Nylon	Zinc Alloy	38

Features

1. Unique buckle design which specific for rappelling during outdoor activities or in case of emergency.
2. Movable bar of the buckle provides extra locking of the ribbon.
3. Unique ribbon texture offers comfort wearing experience.
4. High quality nylon material keeps the belt looks fresh for long time.

Product Code	Description	Material	Buckle Material	Width (mm)
NLTK-03-38	Tanks Grain Nylon Belt	Nylon	Zinc Alloy	38

Nylon Python

Product Code	Description	Material	Buckle Material	Width (mm)
NLWW-01-38	Python Nylon Belt	Nylon	Zinc Alloy	38

Features

1. Python pattern provides non-slip function.
2. High quality nylon ribbon offers high tensile strength and superior wearing resistance, which make it good for various activities.
3. Buckle can be coated in order to offer soft touch feeling.

Nylon Embossed

Features

1. Zinc alloy adjustable buckle.
2. Embossed pattern offers non-slip function.
3. High density, high strength, durable and superior wearing resistance.

Product Code	Description	Material	Buckle Material	Width (mm)
NLAT-02-38	Embossed Nylon Belt	Nylon	Zinc Alloy	38

Polyester Camouflage

Features

1. Classic camouflage pattern with different color combination.
2. User friendly design - Light weighted plastic buckle from YKK allows you to cross the custom freely without lifting your belt.
3. With anti-load feature of the buckle, tape will never slip even for long time's wearing.

Product Code	Description	Material	Buckle Material	Width (mm)
DLMC-01-32	Polyester Camouflage	PET	POM	32
DLMC-01-38				38

Nylon Bandolier

Features

1. Multi-function bandolier belt made of high quality nylon ribbon.
2. High tensile strength, superior wearing resistance, anti-corrosion and non-deformation.
3. Special bullet pockets allow you to put many necessities during outdoor activities or under military mission.
4. Light weight, but high tensile strength aluminum buckle offers comfort wearing experience.

Product Code	Description	Material	Buckle Material	Width (mm)
NLZD-01-38	Bandolier Nylon Belt	Nylon	Aluminum Alloy	38

Military Series

Polyester Camouflage

Features

1. High quality polyester utility belt
2. Light weighted plastic buckle with extra lock to make sure the belt is securely fastened during mission.
3. Special bullet pockets allow you to put many necessities during militaries mission.
4. High tensile strength with superior wearing resistance.

Product Code	Description	Material	Buckle Material	Width (mm)
DLMC-03-55	Camouflage Utility PET Belt	PET	POM	55

Nylon Outer

Features

1. Outer nylon belt made of high quality nylon material.
2. Adjustable bullet pockets allow you to put different necessities during militaries mission.

Product Code	Description	Material	Buckle Material	Width (mm)
NLWY-01-57	Outer Nylon Belt	Nylon	Iron/ Stainless Steel	5.7

Cotton Outer

Features

1. Outer belt made of 100% cotton.
2. Adjustable bullet pockets allow you to put different necessities during militaries mission.

Product Code	Description	Material	Buckle Material	Width (mm)
NLWY-02-57	Outer Nylon Belt	Cotton	Iron/ Stainless Steel	5.7
